## GreatLife 4 All Delivers Beyond all Expectations!

Nestled between lakes and wooded hills just North of Atlanta, GA., the Etowah Valley Humane Society is housed in a non-descript brick building that does not do justice for the dedication their employees and volunteers have for their “guests.” Every pet brought into the shelter has an unfortunate past and their goal is to give each one an encouraging future.

The animal shelter is funded totally by donations given to this non-profit organization by local individuals and businesses that have a heart for the ethical and humane treatment of animals. The current economic conditions hit the Society hard this year and food was in very short supply, according to director Bryan Canty.

Tori Sturz presents a check to EVHS director Bryan Canty.

Excited EVHS “residents” watch as their new supply of food is delivered.

All that changed when a truck from GreatLife International arrived at the shelter on Christmas Eve. With tears in their eyes, the society’s employees knew that this donation, funded by GreatLife distributors and employees through a month long GreatLife 4 All promotion, would keep all of the animals fed for the next 2 months. “Beyond all expectations” was everyone’s reaction!

Take a look at some of the photos... the shelter’s employees weren’t the only ones that were excited!

*“It’s very heartwarming to see how many different ways GreatLife 4 All supports our local communities. The donations to the Etowah Valley Humane Society are an example of how we can all make a difference by working together.”*

- Eileen Piurowski, GreatLife Director of Operations
